Carrier Facts Math
(Multiplication and Division)

1. There are 3,000 TVs on board the Mother ship. If half of them are turned on, how many are turned off?

2. If there are 18,000 meals served every day, how many of those meals are breakfast?

3. One anchor weighs 30 tons, which is equivalent to about 5 male African elephants. If the aircraft carrier has two anchors, how many tons do the anchors weigh altogether? About how many male African elephants would it take to equal the weight of two anchors?

4. In one week, there are 1,500 haircuts. About how many haircuts would there be on any one day?

5. How often do you get your haircut in one year? How many times would you get your haircut in four years?
