

Tracking Down Metaphors in *A Black Hole is NOT a Hole*

When you read this book, you will come across metaphors, including special metaphors called similes. Note any metaphors you find. Use the example in the chart as a guide.

If you run out of room, add your own rows to the table.

Page number(s)	What two items are compared?
<i>Example:</i> 1	<i>black holes and out of control predators (or beasts, monsters, etc.)</i>
