

Finding Metaphors in Other Science Writing

Read, watch, or listen to nonfiction science information. Use this sheet to take notes on the metaphors that the authors use. Which metaphors seem most interesting and effective? Which ones don't work very well for you? Can you say why?

Source	What two items are compared?	Describe how the metaphor fits and doesn't fit.	What are the metaphors strengths or weaknesses in terms of what you learn or how it makes you react?
